

## Vitalized drinking water for your home !

Installing our water vitalizer is like a walk in the park! The AQUAFLOW® silicon ribbon is to be wrapped around the cold water pipe at main entrance. Thanks to this advantageous system, you will benefit from vitalized water in your kitchen, your bath and/or whilst taking a shower !

- less softening salt for dishwashers
- less washing power for the laundry
- easier cleaning of the tiles in bath and kitchen equipment

### Further advantages:

Our system is known to soften tap water. All household aids, such as coffee machine, washing machine, dish washer, etc. will be considerably spared from lime scales.

### Ecological advantages:

As the water consumption can be reduced with our devices from 30% up to 50% you contribute in saving a lot of energy regarding our environment.

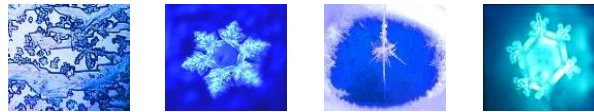

Even if the media rarely informs about water shortage in industrialized cities; thanks to BIOTAC TECLINE® products you really can help protecting one of the most important resources on earth. Take part !

The vitalizing and refreshing effects of our AQUAFLOW-systems persist for years and years !

## Certified scientific studies and analyses of tachyons

Currently we present six different analyses in the context of „Vitalizing drinking water“ with the following Tachyon Products: AQUAFLOW®, AQUIVATOR® and FOOD CARD Mini®.

In order to visualize and to print the analyses as PDF-files, we ask you to click on the according links on our homepage: [www.biotac-tecline.com](http://www.biotac-tecline.com)

All studies prove irreproachably that our systems are able to optimize not only normal tap water but also distilled water in its biological and chemical structure.

Give yourself a treat and by using Swiss-German BIOTAC TECLINE® Tachyon Products!

TECLINE**  
TACHYON ENERGY SOLUTIONS

Since 1995 we deal with energizing and conditioning tap water. Ever since, all our customers report that drinking vitalized water contributes a lot for their personal well-being. Our vitalizing systems promote the quality of faucet water and transform it to a private wellness source featuring the following positive side effects:

- 1) Nitrate and other affecting particles such as heavy metals are partially restructured by tachyon energy, in a way that they create less connections with organisms which help to discharge the whole immune system.
- 2) The bio-physical frequency of tap water is highly augmented. On the occasion of scientific measurements with a spectrograph interesting values were showed: normal tap water shows a value of approx. 82 bio-energetical units (BEU), the average of good mineral water is around 220 BEU's. **Tachyonized water shows an average of approx. 14'000 BEU's!**
- 3) „Left-spinning“ (affecting organisms) water molecules are commutated in „right-spinning“ (strengthening) water molecules.
- 4) Tap water containing a big quantity of lime is chemically changed. This is one of the reasons that after installing our systems all devices that are branched to the water circuit shows a significant smaller appearance of lime scales (cooking utensils and kitchen appliances).

Thanks to our BIOTAC TECLINE® products you directly contribute to your environment: some of your products reduce to water consumption up to 50%; without renouncing to your habitual comfort !

With regard to your health we think that the most important statement consist in the fact, that the taste of tachyonized is much better than just ordinary tap water and that it offers a lot for your well-being !

## Vitalized drinking water for kitchen and bath rooms

The tachyonized and gold plated (24ct) **AQUIVATOR®** offers an effective and low-cost opportunity to vitalize your drinking water at home and in your office.

The **AQUIVATOR®** reduces the water consumption of all taps from approx. ca. 15 l/min down to approx. 8 l/min. The patented construction enables that a lot of oxygen is mixed to the water jet, even at low pressure. The ball joint enables a comfortable swivel of the water jet for 360° in a square of 15°.

The fast amortization and excellent cost-performance ratio of the **AQUIVATOR®**, its durable and solid construction and, its best-possible lime scale protection are one of the reasons, that this device has been elected as # 1 device out of a selection of more than 300 products for vitalizing drinking water.

And, last but not least, your pets adore vitalized water. Hundreds of tests repeatedly clearly show that cats, dogs and horses as well instinctively always choose vitalized water; if they can.

Food and beverages that have been prepared and cooked with vitalized water tastes much better and are absolutely healthier !

The vitalizing and refreshing effects of the **AQUIVATOR®** persists for many years !

## Refreshing shower at home and in the hotel room

In order to benefit from vitalized water whilst having a shower, we conceived the **AQUAJET®**.

The **AQUAJET®** saves up to 30% water and energy and represents therefore a significant tool for supporting the environment. The **AQUAJET®** suits for all standard fittings at the shower and in the bath tube with 1/2" connection. The integrated rotary joint spares the shower hose from wearing out by twisting.

A great number of users notice in short time, that their skin and especially their hair feel noticeable more vital after installing the **AQUAJET®**. Furthermore our customs confirm that due to the structural and biochemical alteration of the water molecules the annoying calcium deposits are clearly reduced.

Hint for persons who often wash their hair und regularly take showers and try to promote their health in an active way:

Care has to be taken of what is printed on the packaging! Try to avoid using products containing too many „unknown“ chemical ingredients.

And, don't forget : The vitalizing and refreshing effects of the **AQUAJET®** persists for many years, too !
